ABOUT

A voice engineered by ZozanX Media.

Zozan C. was conceived inside the ZozanX Media production pipeline – a voice, visual identity and sonic world designed frame by frame at the intersection of human songwriting and generative production. Every release moves through the studio's full AI Studio workflow: concept, voice synthesis, visual direction and cinematic music video production.

Zozan C. is not a novelty – she is a working example of the studio's AI Studio pipeline: concept, voice synthesis, visual direction and cinematic music video production, all under continuous human creative direction.
